

Linda C. Ivany
Professor of Earth Sciences
Department of Earth Sciences, Heroy Geology Laboratory
Syracuse University, Syracuse, NY 13244
phone: (315) 443-3626 / fax: (315) 443-3363 / email: lcivany@syr.edu
<http://asfaculty.syr.edu/pages/ear/Ivany-Linda.html>

Education

Ph.D. in Geology, 1997, Harvard University
Advisor: Stephen Jay Gould
M.S. in Geology, minor in Zoology, 1990, University of Florida-Gainesville
Advisor: Douglas S. Jones
B.S. in Geology, minor in Zoology, 1988, Syracuse University
Advisor: Cathryn R. Newton

Academic Positions

2012-present Professor of Earth Sciences, Syracuse University
2005-2012 Associate Professor of Earth Sciences, Syracuse University
2001-2005 Assistant Professor of Earth Sciences, Syracuse University
2000-2001 Visiting Assistant Professor of Earth Sciences, Syracuse University
1997-2000 Michigan Society Fellow and Visiting Assistant Professor of Geological Sciences, University of Michigan

General Research Interests

Evolutionary Paleoeecology, Paleoclimatology, Stable Isotopes in Paleobiology

I am principally a marine paleoecologist. My interests span a relatively diverse group of topics, however they are united in that they are concerned with how ecosystems and their component taxa evolve and respond to changes in the physical environment. Specific areas of interest include biotic and climatic change during the Paleogene (~65-24 million years ago); use of geochemical data, particularly stable isotopes, derived from accretionary biogenic materials (e.g., mollusk shells) for inference about life history, ecology, and paleoclimate; environmental change associated with intervals of faunal stability and turnover; and the long-term dynamics of ecological assemblages.

Sponsored Research

National Science Foundation Antarctic Earth Sciences (Division of Polar Programs)

PLR-1543031

Seasonality, Summer Cooling, and Calibrating the Approach of the Icehouse in Late Eocene Antarctica

Co-PIs: Scott Samson, Chris Junium, Zunli Lu (Syracuse University); 4/1/16-3/31/18
\$312,182

National Science Foundation Sedimentary Geology and Paleobiology

EAR-0719645

“Collaborative Research: Exploring the Links among Climate, Ecology, and Evolution in Paleogene Marine Faunas of the U.S. Gulf Coastal Plain”

Co-PIs: Rowan Lockwood (College of William and Mary) and Warren Allmon (Paleontological Research Institution and Cornell University); 9/01/07 – 8/31/11

Syracuse is lead institution

\$156,124 to SU

Supplement to EAR-0719645

For extended postdoctoral support; 03/15/10 – 8/31/11

\$33,317

Research Experience for Undergraduates Supplement to EAR-0719645

08/07/08 – 8/31/10

\$11,920

National Science Foundation Major Research Instrumentation

“Acquisition of a Laser-Ablation System for High Resolution, Micro-Scale Analyses of Environmental Materials”

PI: Karin Limburg (State University of New York College of Environmental Science and Forestry), Co-PIs: Linda Ivany, Scott Samson (SU), Donald Stewart (ESF);

8/1/07 – 7/31/10

\$209,929 to ESF

American Chemical Society Petroleum Research Fund

No. 40418-G2, 2004 - 2007

“Seasonality in the Early Eocene Warm Climate of the U.S. Gulf Coastal Plain”

\$35,000

Summer Research Fellowship accompanying No. 40418.01-G2

Co-PI Rowan Lockwood (College of William and Mary); 2005-2006

\$8000

National Science Foundation Office of Polar Programs

Grant No. 5860, 2002 - 2006

“Collaborative Research – Eocene Climate Record of Seymour Island: The Environmental Context for Ecological and Evolutionary Change”

Co-PI Kacey Lohmann (University of Michigan)

Syracuse is lead institution

\$125,073 to SU

Research Experience for Undergraduates Supplement to OPP 5860

2002-2005

\$20,000

Fund for Scientific Research – Vlaanderen, Belgium

No. G.0093.01, 2001-2004

“Stratigraphy of the Priabonian and Rupelian, the Eocene-Oligocene Transition, in North Belgium as a basis for correlation with the classical marine basins in the Northern Hemisphere”

Co-PIs: Noël Vandenberghe (University of Leuven, Belgium)

Etienne Steurbaut (Royal Belgian Institute of Natural Sciences)

Henk Brinkhuis (University of Utrecht, the Netherlands)

administered in Belgium

~\$220,000 in equivalent US dollars

National Science Foundation Postdoctoral Fellowship, 1997-1999

“Biotic and Climatic Evolution in the US Gulf Coastal Plain Paleogene”

\$60,000

Honors and Awards

- Fellow of the Paleontological Society, 2015
Fellow of the Geological Society of America, 2015
2010 Honorary Award for Distinguished Achievement in the Field of Earth Sciences, American Federation of Mineralogical Societies, Eastern Federation (comes with the privilege of selecting 2 SU graduate students to receive \$4000 research awards each from the AFMS Scholarship Foundation)
Antarctic Service Medal of the United States of America, 2005
Honorable Mention, Best Paper Award, *Journal of Sedimentary Research*, 2004
Michigan Society of Fellows Postdoctoral Scholar, 1997-2000
National Science Foundation Postdoctoral Research Fellow, 1997-1999
Miller Postdoctoral Fellowship, UC Berkeley, declined 1997
American Fellow, American Association of University Women, 1995-1996
Certificate of Distinction in Teaching, Spring 1992, Fall 1992, Spring 1993
Honorable Mention, Outstanding Paper of 1990, *Palaios*, 1991
Syracuse University Scholar (equivalent of valedictorian), May 1988
Phi Beta Kappa
Phi Kappa Phi

Courses Taught

Syracuse University

History of Earth and Life: EAR 210, introductory course for majors (lecture and lab) - annual (2011-present)

Earth Science: EAR 105, large introductory course for non-majors – annual or twice annual (2001-2009, 2016)

Introduction to Paleobiology: EAR 325, upper level course for majors - annual

Geochemical Patterns in the History of Earth and Life: EAR 455/655, upper level course for majors and graduate students – team-taught in alternate years

Topics in Paleobiology: EAR 429/629, graduate seminar in paleobiology; past topics have included Stable Isotope Paleobiology, Evolutionary Paleoecology – as requested

Seminar in Paleobiology/Paleoclimatology: EAR 400/600, one-credit topical seminars; past topics have included The Writings of Stephen Jay Gould, Greenhouse Paleoclimates; as requested

Paleoecology: EAR 624, graduate course – as requested

First-Year Forum: CAS 101, seminar course with freshman to orient them in the college; on average every 2-3 years

Other Schools

Field Methods in the Geological Sciences: University of Missouri-Columbia, 2004-2009, field geology taught in the Wind River Mts and Basin in Wyoming; fulfills field course requirement for majors in most US Earth Science departments

Proxies for Paleoclimate Change: Geological Sciences 531, University of Michigan, 2000, seminar for graduate students on pre-Quaternary climate records

Dinosaur Extinction and Other Controversies: Geological Sciences 150, University of Michigan, 1999, introductory freshman seminar in paleobiology and earth history

Marine Awareness Research Expedition, *Mariners and Voyagers* Programs, Franklin Pierce College, summers 1996-1999; geology and natural history of the Gulf of Maine taught on board the schooner *Harvey Gamage*; introductory course

Marine Awareness Research Expedition, *Teachers Program*, Franklin Pierce College, summer 1997; geology and natural history of the Gulf of Maine taught from sea kayaks in Acadia National Park; K-12 teachers

Informal Education

Co-leader of a 2-week geological field trip to the Colorado Plateau, including the Grand Canyon and other national parks, for 20-30 students in the Dept. of Earth Sciences – 2008

Received \$6250 grant in co-curricular funds from the College of Arts and Sciences to support the Colorado Plateau trip; 2012.

Student Research Supervision

Ph.D. Candidates – Primary Advisor

- Emily Judd (begin 2014) – “Antarctic seasonality in a greenhouse earth: a high-resolution record of changes in Eocene temperature and precipitation”
- David Moss – “Evolution of extreme longevity in bivalves” (2016) – Assistant Professor at Vassar College
- Patrick Wall – “Incorporating spatial datasets into paleontology: Effects on estimates of diversity, origination, & extinction.” (2009) – *SU Dissertation Fellow* – currently working for Exxon-Mobil
- Heather Wall – “Molluscan diversity dynamics at the middle-late Eocene boundary in the U.S. Gulf Coastal Plain: faunal response to global climate change?” (MPhil in 2012)
- Ellen De Man – “Foraminifer biofacies and stable isotope analyses as paleoproxies for Oligocene environments, southern North Sea Basin” (University of Leuven, Belgium) (2006) (Co-supervisor with Noel Vandenberghe) – currently working for Exxon-Mobil

Master of Science Candidates – Primary Advisor

- Marie Jimenez – begin Fall 2106
- Daren McGregor (expected 2016) – “Paleoseasonality along a late Cretaceous latitudinal gradient”
- Andrew Beard – “Regional variation in seasonal oxygen isotope values of Permian bivalves from Southeastern Australia” (2012) (PhD in progress, U of Connecticut)
- Kwasi Gilbert – “Life history and ecology of the Neogene sperm whale *Physeterula dubusii* from the Atlantic Coastal Plain” (2011) – *NSF Dissertation Fellow* (PhD in progress, UC Santa Cruz)
- Andrew Haveles – “Rapid growth explains large size of mollusks in the Eocene Gosport Sand, US Gulf Coast” (2009) (PhD in progress, U of Minnesota)
- Nicole Miklus – “The high-latitude response of temperature seasonality to global Eocene cooling” (2008) (currently science writer for Johns Hopkins University's Chemical Propulsion Information Analysis Center, <http://cpiac.jhu.edu/>, as managing editor for the JANNAF Journal of Propulsion and Energetics)
- Christy Visaggi – “Testing for Patterns of Faunal Persistence in the Byram Formation (early Oligocene) of Mississippi” (2004) (PhD 2012 UNC Wilmington; Lecturer at Georgia State University begin Fall 2012)
- Christina Hartman – “High Resolution Stable Isotope Paleoclimatology of the Jurassic Great Estuarine Group” (2004) (currently K-12 educator)
- Laura Stafford – “Census populations of early Eocene *Venericardia hatcheplata* (Bivalvia) from the US Gulf Coast” (2003) (free-lance science writer)

Thesis Committee Member for the following candidates:

Ph.D.

- Shibajyoti Das – begin Fall 2015
- Brendan Anderson – “Stable isotopic investigation of turritelline-dominated assemblages” (Cornell University) (expected 2017)
- Daan Vanhove – “Geochemical proxies for paleoclimate in the Eocene record of the North Sea basin” (University of Leuven, Belgium) (expected 2016)
- Katherina Bendz Searing – “The effects of recent climate change on body size evolution in small mammals” (SUNY-ESF, Environmental and Forest Biology; expected 2013)
- Stoney Gan – “Seeking proxy signals of climatic rhythms in the sediment profile from the Lake Bosumtwi, Ghana, West Africa” (expected 2016)

- Bryan Sell – “Tephrochronology and correlation of late Ordovician K-bentonites in eastern North America” (2010)

- Trevor Schlossnagle (SUNY-ESF) – contributor to Sessa et al. 2012 “The fidelity of oxygen and strontium isotope values from shallow shelf settings: implications for temperature and age reconstructions”
- Caitlin Keating-Bitonti – “How warm was the early Eocene? Paleotemperature reconstructions for the US Gulf Coast from the shells of *Venericardia* (Bivalvia)”, Senior Thesis, 2009 – M.S. U of Wisconsin (2011), PhD in progress, Stanford Univ., NSF Graduate Fellow
- Kwasi Gilbert – “Life History and Paleoecology of Pliocene Sperm Whales from the Atlantic Coastal Plain”, Senior Thesis, 2009 (McNair scholar)

- Erin Fenlon – “Quantifying the morphology and reconstructing the phylogeny of venericard bivalves along the Gulf Coastal Plain during the Paleocene and Eocene” (College of William and Mary senior honors thesis, co-advised with Rowan Lockwood; 2007)
- Devin Buick – “100 Years in the Dark: Extreme Longevity of Eocene Bivalves from Antarctica” 2002-2003; published as Buick, Devin P. * and Ivany, Linda C. (2004) 100 years in the dark: extreme longevity of Eocene bivalves from Antarctica. *Geology*. PhD U of Cincinnati, post-doc at U of Hawaii
- Ethan Underwood – “Relation between skeletal accretion rate and age in the bivalve *Spisula solidissima*” spring, fall 2004
- Alison Cattani – “Comparison of life histories of two Eocene bivalves from Antarctica using high-resolution stable isotope data” fall 2003
- Meghan Hazer – “Color banding in Eocene naticid gastropods from Seymour Island, Antarctic Peninsula” 2002-2003
- Greg Cohen, Matthew Heumann, and Matthew Streubert – supervisor for independent study and research projects in isotope paleobiology, Spring 2001; published as Ivany, Linda C., Wilkinson, Bruce W., Lohmann, Kyger C, Johnson, Emily R. *, McElroy, Brandon J. *, and Cohen, Gregory J. * (2004) Intra-annual isotopic variation in *Venericardia* bivalves: Implications for early Eocene climate, seasonality, and salinity on the US Gulf Coast. *Journal of Sedimentary Research*, 74, pp. 7-19.
- Mark Suchter, Sarah DeLong, Derek Grossman, Shaleena Kyser, Sarah Jacobsen – research supervisor for students in the University of Michigan Undergraduate Research Opportunities Program, 1998-2000
- Beth Reimer (University of Mississippi) and Lisa Vosburgh (Colorado College) supervised summer research projects in geochemistry and paleobiology, summer 2000; published as Ivany, Linda C., Peters, Stephen C., Wilkinson, Bruce H., Lohmann, Kyger C, Reimer, Beth A. * (2004) Seawater Sr/Ca and Mg/Ca records from an Oligocene coral. *Geobiology*, v. 2, pp. 97-106.

High-School Student Research Supervision

- Terry-Lee Bixby – Liverpool High School, Liverpool NY – spring semester science class project (2011)
- Philippa Stoddard – The Winsor School, Boston MA – intensive 6-week summer internship and independent research (2010) (went on to undergrad at Yale University)
- John Schue – Liverpool High School, Liverpool NY – spring semester science class and science fair project (2006)

Postdoctoral Scholar Supervision

- Lars Beierlein – (2015) PhD Alfred Wegener Institute for Polar Research; funded through the IMCONet program for climate change in Western Antarctica; “*Intrannual variation in Antarctic bivalve growth during the Eocene*”
- Jocelyn Sessa – (2009-2010) PhD Penn State; funded by NSF EAR-0719645 to Ivany “*Collaborative Research: Exploring the Links among Climate, Ecology, and Evolution in Paleogene Marine Faunas of the U.S. Gulf Coastal Plain*” (followed by postdoctoral position at the Smithsonian Institution, currently post-doc at the American Museum of Natural History)

Service to the Scientific Community

Union College Department of Geology External Review Committee member, 2016
Planning Committee Member, 4th International Sclerochronology Conference, Portland ME, 2016

Paleontological Research Institution, Ithaca NY
Member, Board of Trustees, 2008-2014
Vice President, Board of Trustees, 2010-2012
President, Board of Trustees, 2012-2014
Member Emeritus, Board of Trustees, 2014-present
Keynote speaker, Summer Symposium 2014

Paleontological Society
Committee on Fellows, 2016-present
Councilor-at-Large Unrestricted, 2010-2012
Distinguished Lecturer, 2003-2005
Associate Editor, *Paleobiology*, Paleontological Society, 2011-2014
Co-Convenor of 2012 PS Short Course, *Reconstructing Earth's Deep-Time Climate – The State of the Art*, and accompanying edited volume, with Brian Huber.
Nominating Committee member, 2004-2007

Geological Society of America
Associate Editor, *Geology*, 2006-2010
Co-Convenor, 1999 Annual Meeting, Theme Session 41: "*From Greenhouse to Icehouse: The Marine Eocene-Oligocene Transition*", with Don Prothero and Elizabeth Nesbitt
Co-Convenor, Penrose Conference "*The Marine Eocene-Oligocene Transition*", with Don Prothero and Elizabeth Nesbitt, August 16-21, 1999, at Evergreen State College in Olympia, WA.
Co-Convenor, 1994 Annual Meeting, Theme Session 38: "New Perspectives on Faunal Stability in the Fossil Record", with Kenneth M. Schopf

Founder and Coordinator of *Central New York Paleontology*, group of paleontologists (students and faculty) from regional colleges and universities that meets every semester to discuss ongoing research

Invited participant in NSF-sponsored workshops on:
Paleobiology Database, January 2013
"*Austral Portals: Plate Tectonics, Paleobiogeography and Paleogeography*" 2010
Paleoecology, September 2008
Paleoclimate, May 2003, 2004; helped to write the report and organize the follow-up workshop for 2004
Paleoecology, 1998

Member, Paleobiology Database Marine Invertebrate Working Group, since inception
Keynote Speaker (invited), 3rd International Sclerochronology Conference, May 2013, Caernarfon, North Wales

Distinguished Lecturer, AAPG European Division, Fall 2012 (canceled due to administrative problems)

Review Panel member, National Science Foundation

External Reviewer, Promotion and Tenure packages for junior faculty (unnamed schools)

Reviewer of manuscripts and books for *Paleobiology*, *Geology*, *Science*, *Nature*, *Palaios*, *Palaeogeography Palaeoclimatology Palaeoecology*, *Chemical Geology*, *The Holocene*, *Paleoceanography*, *Earth and Planetary Science Letters*, *Climate of the Past*, *Global and Planetary Change*, *Bulletin of Marine Science*, *Antarctic Science*, *Journal of Geology*, *Journal of Geophysical Research*, *Marine Micropaleontology*, *Journal of the Geological Society of London*, *Facies*, *Journal of Taphonomy*, McGraw-Hill Publishers, University of Chicago Press, Blackwell Publishing, Wiley Publishing

Reviewer of proposals for the National Science Foundation, American Chemical Society's Petroleum Research Fund, WOTRO (Foundation for Advancement of Tropical Research, Amsterdam), Netherlands Organisation for Scientific Research, VolkswagenStiftung, Natural Environment Research Council of the UK (NERC)
Editorial Advisory Board member, *Geobiology*, until 2011
Co-Editor of Florida Paleontological Society Newsletter, with Daniel Bryant, 1989-1990

Service to the University

Syracuse University

Promotion and Tenure Review Committee, 2008-2009, 2010-2011, 2012-2013
Coordinator for Undergraduate Research, Women in Science and Engineering (WiSE) program, Colleges of Arts and Sciences and Engineering, 2008-present
- Organize and oversee the competition for the Norma Slepecky Prize for Undergraduate Research and the accompanying annual Norma Slepecky Lecture Lower Division (Freshman/Sophomore) Academic Advising, 2001, 2002, 2005, 2008, 2009, 2011
First-Year Forum instructor (2002, 2005, 2008, 2011, 2014, 2016)
LSAMP Advisory Board Member (2013-present)
Selection Committee Member for ACC's 2015 Meeting of the Minds (M.O.M.) Conference for Undergraduate Research
Search Committee Member, Department of Science Teaching, 2009
Search Committee Member, Department of Physics (2 searches), 2008
Search Committee Member, Biology Department, Ecology and Evolution, 2005
Faculty Address, College of Arts and Sciences Convocation, Graduation 2007
Faculty Address, Phi Beta Kappa Induction Ceremony, 2006 *Why Science Matters: Myth and Misconception in the Public Understanding of Science*
Chancellor's Committee on the Environment Initiative, 2005-2007
Coronat Scholars Selection Committee, 2005-2006
Senior Thesis Review Committee, Syracuse University Honors Program, 2005
Planning Committee member for the Syracuse Symposium 2003
Organizing Committee to host Dr. Meave Leakey in March 2004
Contributing Member of WISE – Women in Science and Engineering
Member of faculty advisory committee to the Dean of the College of Arts and Sciences, Fall 2001

University of Michigan

Faculty Supervisor for students in the U of M Undergraduate Research Opportunities Program, 1998-2000
Selection Committee member for the University of Michigan Distinguished Dissertation Awards 1997-2000
Selection Committee member for the Michigan Society of Fellows, University of Michigan 1997-2000

Harvard University

GSAS Women's Group Steering Committee member, Graduate School of Arts and Sciences, Harvard University, 1994
Earth History and Paleobiology Lecture Series coordinator, Harvard University, 1991-1993

Service to the Department of Earth Sciences, Syracuse University

Director of Undergraduate Studies (2011-present)
Honors Program departmental representative (2006-present)
Curriculum Committee member (2011-present)
 Chair, Curriculum Committee (2008-2011)
Executive Committee member (2012-present)
Faculty Mentoring:
 Faculty Mentor for Prof. Chris Junium
 Faculty Mentoring Committee for Prof. Greg Hoke
 Faculty Mentoring Committee for Prof. Zunli Lu
 Faculty Mentoring Committee for Prof. Rob Moucha
 Third Year Review Committee for Prof. Zunli Lu (2013)
 Third Year Review Committee for Prof. Chris Junium (2014)
 Third Year Review Committee for Prof. Rob Moucha (2014)
 Promotion and Tenure Review Committee member for Prof. Rob Moucha (2016)
 Promotion and Tenure Review Committee member for Prof. Zunli Lu (2016)
 Promotion and Tenure Review Committee member for Prof. Greg Hoke (2014)
 Chair, Departmental Tenure and Promotion Committee for Prof. Laura Lautz (2011)
 Faculty Mentoring Committee for Prof. Laura Lautz
 Faculty Mentoring Committee for Prof. Connie Wehenmeyer
Faculty Development:
 Chair, Paleoclimate Search Committee (2010-2011)
 Search Committee Member, Environmental Geoscience position, 2006
 Search Committee Member, Stable Isotope Geochemistry position, 2003
Coordinator of the Department of Earth Sciences *K. Douglas Nelson Lecture Series* and
 host of many visiting lecturers (2002-2008, with one semester off)
Contributed to writing the self-study document for External Review in 2009
Faculty Advisor for GeoClub, the student-run geology club (2008-2010)

Service/Outreach to the Community

Member, Advisory Council, Talcott Mountain Science Center for Student Involvement, Inc.,
 Avon CT
Interviewed for Speaking Evolution - web/PBS documentary about evolution produced at
 the University of Alabama <http://www.speakingevolution.org/>
Speaker for TACNY's Jr. Café Scientifique, Syracuse NY, 2010, 2012, 2014
Guest speaker, Jamesville-DeWitt Middle School (on several occasions)
Communicate with members of the public stemming from my online PaleoPortal profile,
 including email inquiries and visits to the department
Identify fossils and rocks for members of the public who contact me through the
 department
Advisor to Liverpool High School students competing in Science Fair projects
Workshop leader for Science Horizons summer program for middle school students
Workshop leader for the Sonya Kovalevsky Festival for girls in science and math
Science advisor for the MoST (Museum of Science and Technology), Syracuse NY
 – consultant on dinosaur exhibit, helped to train docents

Interfaced with Technology Alliance of Central New York (TACNY) to sponsor a large public lecture by Eugenie Scott, Director of the National Center for Science Education, on evolution, intelligent design, and the nature of science, that targeted K-12 science teachers and school board members as well as the general public
guest speaker and consultant, Talcott Mountain Science Center for Student Involvement, Inc., Avon CT
Merit Badge Counselor, Boy Scouts of America (geology)
guest speaker, Girl Scouts of America, Onondaga Hill, NY
meet with students/teachers from Liverpool High School to discuss/mentor research projects

Professional Societies

Paleontological Society
Geological Society of America
Paleontological Research Institution
Society for Sedimentary Geology (SEPM)
Sigma Xi
American Geosciences Institute
National Association of Geology Teachers (NAGT)
Ecological Society of America (intermittent)

Membership in Geoscience Information Technology Working Groups

Paleobiology Database - The Database is an NSF-funded project involving more than 80 professional scientific researchers and scores of graduate students. Its goal is to provide global, collection-based occurrence and taxonomic data for marine and terrestrial animals and plants of any geological age from the last 600 million years. Primary data and a variety of analytical tools are available on the web. I am one of the original members of the Marine Invertebrate Working Group. <http://paleodb.org/>

CHRONOS - The Database is an NSF-funded project that aimed to create a dynamic, interactive and time-calibrated framework for Earth history. Its main objective is to develop a network of databases and visualization and analytical methodologies that broadly deal with chronostratigraphy (time). Data and analytical tools are being compiled for web availability. I am part of the Geochemical Cycling Working Group. www.chronos.org (no longer active)

Field Research Experience

Geological / Paleontological:

New South Wales and Tasmania, Australia; lower Permian stratigraphy and paleontology, collection of samples for isotope geochemistry and sclerochronology
Seymour Island, Antarctic Peninsula; evolutionary paleoecology, stratigraphy of Paleogene sediments, collection of specimens for geochemistry and paleoclimate inference
US Gulf Coastal Plain - Alabama, Mississippi, Louisiana, and Texas; Paleogene stratigraphy, sedimentology, paleoecology, and paleontological collections

Wind River Basin, Wyoming; Jurassic Sundance Formation sequence stratigraphy, paleontology, paleoenvironments; Triassic Popo Agie Formation stratigraphy and depositional environments

Central New York; Devonian stratigraphy, paleontology, paleoecology, special emphasis on the Hamilton Group

South Florida and Florida Keys; modern and ancient carbonate environments, paleoecology of Plio-Pleistocene shell beds, particularly the Pinecrest Sand

Citrus and Levy Counties, Florida; Middle Eocene stratigraphy and paleoecology, particularly of fossil seagrass ecosystems and associated facies

Ecological:

Stazione Zoologica di Napoli; Ischia, Italy; Ecology, physiology, and molecular biology of seagrasses; research on application of DNA fingerprinting techniques to modern and sub-fossil population dynamics, RFLP analyses for molecular phylogeny of seagrasses, collection of modern seagrass-dwelling invertebrates and sub-fossil seagrasses

Venezuela (cerca Merida, La Mucuy, Mucubaji, Tico Poro, Barinas, Rancho Grande); tropical terrestrial ecosystems, including paramo, cloud forest, tropical dry forest, and savana; research on bryophytes, epilithic lichens, and grassland fire ecology

Florida Keys, Marquesas, Dry Tortugas; Research Cruise, *R/V Bellows* (UF vessel); marine biology, ecology of shelf/slope benthos and shallow sublittoral seagrass, coralline algae, and coral ecosystems; special emphasis on seagrass-dwelling regular echinoids

Long Island Sound, CT; coastal and estuarine ecology, high salt marsh to deep-water infaunal benthos; special emphasis on nuculid bivalve ecology

Oceanographic:

Research Cruise 97/09 on the *R/V Maurice Ewing* in the equatorial Pacific Ocean 12/12/97-1/18/98 - ODP Reconnaissance cruise; piston and gravity cores, Hydrosweep bottom imaging, shallow seismic profiles of sediments, rock dredge; special emphasis on Eocene sediments and microfossils

Invited Lectures (all in Earth Science Departments unless otherwise indicated)

- Invited symposium speaker for "Towards a resolution to the stasis paradox", at the January 2016 American Society of Naturalists conference in Asilomar, CA
- ALLELE - Alabama Lectures in Life's Evolution – large public lecture series at the University of Alabama
"The Pace Of Life – The (Often) Missing Element In Studies Of Evolution Using Fossils"
 10/15/15
 University of Alabama, 10/16/15
- Keynote speaker, Paleontological Research Institution's Summer Symposium, 8/2/14
- Cornell University, Darwin Days speaker and discussion participant, 2/12/14
- Syracuse University, 1/30/14
- Princeton University, Environmental Geology & Geochemistry Lecture Series, 12/5/2013
- Keynote speaker, 3rd International Sclerochronology Conference, May 2013
- University of Arizona, 3/22/2013
- Iowa State University, 3/1/2013
- University of Minnesota, 2 lectures, 2/9/2012
- Binghamton Evolutionary Studies Program, 11/14/2011
- University of Cincinnati, 12/3/10
- State University of New York College of Environmental Science and Forestry, Dept. of Environmental and Forest Biology, 9/16/10
- Invited speaker for special session at the Ecological Society of America meeting August 2010 -
"Ecological Responses to Abrupt Climate Changes: Looking Back to See Ahead" – I spoke on the effects of greenhouse warming on marine ecosystems

Invited speaker and participant for an NSF-sponsored workshop entitled "*Austral Portals: Plate Tectonics, Paleobiogeography and Paleogeography*", the purpose of which is to explore geological and biological ramifications of the disruption of connections between South America, Antarctica and India-Madagascar during the Mesozoic and early Cenozoic. August 2010.

University of South Carolina, 2/18/10
Syracuse University Department of Biology, Behavior, Ecology & Evolution Research Seminar, 2/15/10
Yale University, Paleoclimate Group seminar series, 2/12/10
Wesleyan University, 2/11/10

Invited speaker for symposium session at American Geophysical Union Fall 2009 meeting – "*Cenozoic Greenhouse Climates and Carbon Cycle Dynamics*"

State University of New York College of Environmental Science and Forestry, Dept. of Environmental and Forest Biology, 2/23/09
State University of New York at Oswego, *Science Today* lecture series, 11/11/08
University at Buffalo, Graduate Program in Evolution, Ecology, and Behavior, 9/19/08
Syracuse University, Nelson Lecture, 8/28/08
State University of New York at Binghamton, 3/14/08
University of Rochester, Department of Biology, 11/9/07
Yale University, Topics in Global Change Symposium, 10/22/07
SU College of Arts and Sciences Graduation Convocation, Faculty Address, 5/12/07
Phi Beta Kappa Induction Ceremony, faculty lecture: *Why Science Matters: Myth and Misconception in the Public Understanding of Science*, 5/12/06

Frontiers of Science Lecture Series, Syracuse University, 4/5/06
University of Florida, Departmental Colloquium, 3/9/06
Hamilton College, Antarctic Science lecture, 3/1/06
Café Scientifique, public lecture/discussion in Syracuse, 2/7/06
Denver Museum of Nature and Science, featured speaker for Prehistoric Journey Symposium, 12/3/05
Syracuse University Department of Geography, 9/23/05
State University of New York at Cortland, 2/23/05
Central NY Association of Professional Geologists, featured speaker, 2/17/05
Colgate University, Departmental Colloquium, 9/28/04
US Coast Guard Academy, New London CT, Science Lecture Series, 9/23/04
Lehigh University, Departmental Colloquium, 9/17/04
University of Oregon, Departmental Colloquium, 5/27/04
University of Illinois, Departmental Colloquium, 4/2/04
SUNY-ESF, Environmental and Forest Biology, Departmental Colloquium, 2/5/04
Rochester Academy of Sciences, 2/3/04
University of North Dakota, Departmental Colloquium, 1/23/04 (2 lectures)
University of Wisconsin at Madison, Weeks Lecturer, 11/14/03 (2 lectures)
Cornell University and Paleontological Research Institute, Frontiers in Paleobiology Symposium, keynote speaker, 10/6/03
University of Buffalo, seminar with paleontologists, 4/22/03
Girl Scouts of America, Onondaga Hill, NY, 4/4/03
Syracuse University Honors Program Welcoming Dinner, 8/25/02
Talcott Mountain Science Center for Student Involvement, Inc., featured lecturer, 5/22/02
Pennsylvania State University, Departmental Colloquium, 5/3/01 (2 lectures)
Virginia Polytechnic Institute, Departmental Colloquium, 4/12/01 (2 lectures)
Colgate University, Seminar for Paleontologists, 4/6/01
University of Kansas, Departmental Colloquium, 3/29/01 (2 lectures)
University of Cincinnati, Departmental Colloquium, 4/28/99
University of Rochester, Departmental Colloquium, 3/?/99
Syracuse University, Departmental Colloquium, 11/19/98
University of Michigan, Turner Lecturer, 9/18/98
Michigan Society of Fellows Colloquium, University of Michigan, 9/14/98
Penrose Conference, "Linking Spatial and Temporal Scales in Paleocology and Ecology", Keynote Speaker, 5/16/98
University of Rochester, Departmental Colloquium, 5/8/98

Indiana University of Pennsylvania, Departmental Colloquium, 3/27/98 (2 lectures)
Department of Integrative Biology, Paleobiology Group, University of California-Berkeley, 12/18/96
University of Wisconsin-Oshkosh, Departmental Colloquium, 4/24/96 (2 lectures)
National Museum of Natural History, Smithsonian Institution, Paleobiology Department, 4/4/96 (2 lectures)
Boston Bay Group (amateur geologists in the Boston area), 3/13/96
The Backcountry Club, Harvard University Graduate School, 2/21/96
University of California at Santa Cruz, Departmental Colloquium, 3/14/95
Atmospheric Chemistry Lecture Series, Department of Earth and Planetary Sciences, Harvard University, 11/5/93
Harvard University Marine Program, Department of Organismic and Evolutionary Biology, 2/93
Florida Paleontological Society Fall Meeting, keynote speaker, 10/28/89
